

Blake Vosburgh

With a rare mix of creative digital marketing, design, development, and video production skills I'm able to tackle projects from a variety of perspectives. Self sufficient, goal oriented, quickly adapting, my skill set coupled with 8+ years design, web, and video experience makes me an indispensable asset to the team. Constantly learning, honing, and expanding my abilities. I enjoy collaborating on new ideas, defining brands, spreading the message, and taking project ownership.
